

INSTRUCTION

What you definitely need: *Printer, Scissors, Glue*

What makes it perfect: *Laminator, Laminat pass foil / DIN A7, Lanyard or Key ring*

Software: *Adobe Acrobat Reader DC*

Customize your pass via PDF reader:

Open this file with the free Adobe Acrobat Reader DC. It will allow you to type your name into the white field of the pass.

Optional: Print this file and simply sign the white field

Finish it:

- print the file and cut out the pass (follow the cutting lines)
- fold the middle and glue both sides on the unprinted side together
- put the dried pass into your DIN A7 foil and laminate it
- finish it with a lanyard or key ring
- for those without a laminator: just put a card between both sides and glue them together for a better performance!

And now?

Wear it with proud!

Everywhere and especially at cKy related events. Invite new members to your Alliance.

Use the QR-code to link everyone directly to Castle cKy.

We are the Rock Survivors and part of the Alliance - force change now!
